Alan

Good morning. I am sorry for being technically challenged! I am sending you DEQ comments within CZARA area that are from 2000 to 2004. I will send the other reviews in separate e-mails.

In general, we can group DEQ's biennial review participation in three different time frame. I can elaborate on this further when we are on call on the 16th.

~ 2006: ODA was establishing area plans and rules across the state. DEQ often provided comments to ODA during public comment period.

2006 - 2011: DEQ informally (via email or in person) provided comments and WQ information to ODA and LAC for biennial reviews. There are very few DEQ comments in my records.

2012 – Present: Starting around 2010, DEQ and ODA began to put more emphasis on improving the biennial review process. ODA began formally responding to DEQ comments in 2012 and posting them on ODA website in 2013.

Let me know if you have any questions.

Koto,

Thanks for your work on this. I look forward to reading DEQ's reviews. You too, have a great weekend.

Alan

Alan

My apologies I am having a hard time creating a zip file to send to you. Somehow the size of the zip file is 14 MB. I will try again on Monday.

I will be sending you 17 files. They are biennial review related documents with DEQ comments within CZARA area. I am submitting some of the documents you have received from ODA, but also includes earlier biennial review documents that ODA did not submit.

Sorry again. Have a good weekend,
Koto
